LOCHMERE

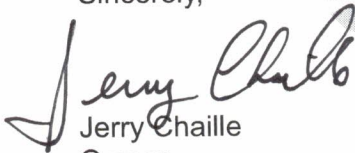

June 4, 2024

To Whom It May Concern:

I hired KOAL, PLLC to provide professional architectural services for the expansion of the clubhouse bar and restaurant, and the addition of two indoor golf simulators with adjacent covered outdoor seating. KOAL and his team of engineers worked closely with me making multiple revisions to accommodate my design criteria. The final design meets all my business needs in the most economical way while providing an aesthetically pleasing and inviting space that compliments the existing building.

Don and his team showed a great deal of experience, professionalism and remained responsive throughout the design and construction process. I would not hesitate to hire him for any future projects.

Sincerely,

Jerry Chaille
