

Keith P. Hemingway, Architect

6 Eagle Nest Drive, Franklin, NH 03235

To Whom It May Concern;

I have had the privilege of working with Don Blajda as a fellow employee, co-architect and mentor for 20 years. Don has always been a pleasure to work with because of his experience, professionalism and impeccable character. Don brings a thorough understanding of the design and construction process to every project.

His knowledge of the myriad and complicated codes that we are required to build to is extremely important, especially for public work. His pleasant and helpful personality is a necessary benefit in working with large teams of client representatives on complicated projects. His knowledge of the construction process is very helpful in working out construction period issues that are present in every project.

Don has designed a number of multi-million dollar public and private projects and I highly recommend him to any client looking for a capable, thoughtful and dedicated partner for whatever project you have in mind.
